

Overview of Japanese Automobile Manufacturers' Operations in China

- Japanese manufacturers carry out automobile production, sales, and related activities in China in partnership (through joint ventures and other tie-ups) with Chinese affiliates.
- The number of Japanese-brand passenger cars, trucks and buses produced in China has grown rapidly over the past 10 years, and recorded as more than 3 million units for 5 consecutive years.
- Japanese manufacturers currently have 95 production and other bases (for cars, trucks, buses, motorcycles, and auto parts) operating in China. Approximately 180,800 people are employed in their Chinese operations.

Production & Other Bases

■ Total number of car, truck & bus production bases/Investment, R&D, etc. bases: 79
Production: 47; Other: 32

■ Total number of motorcycle production bases/Investment, R&D, etc. bases: 16
Production: 10; Other: 6

Employees

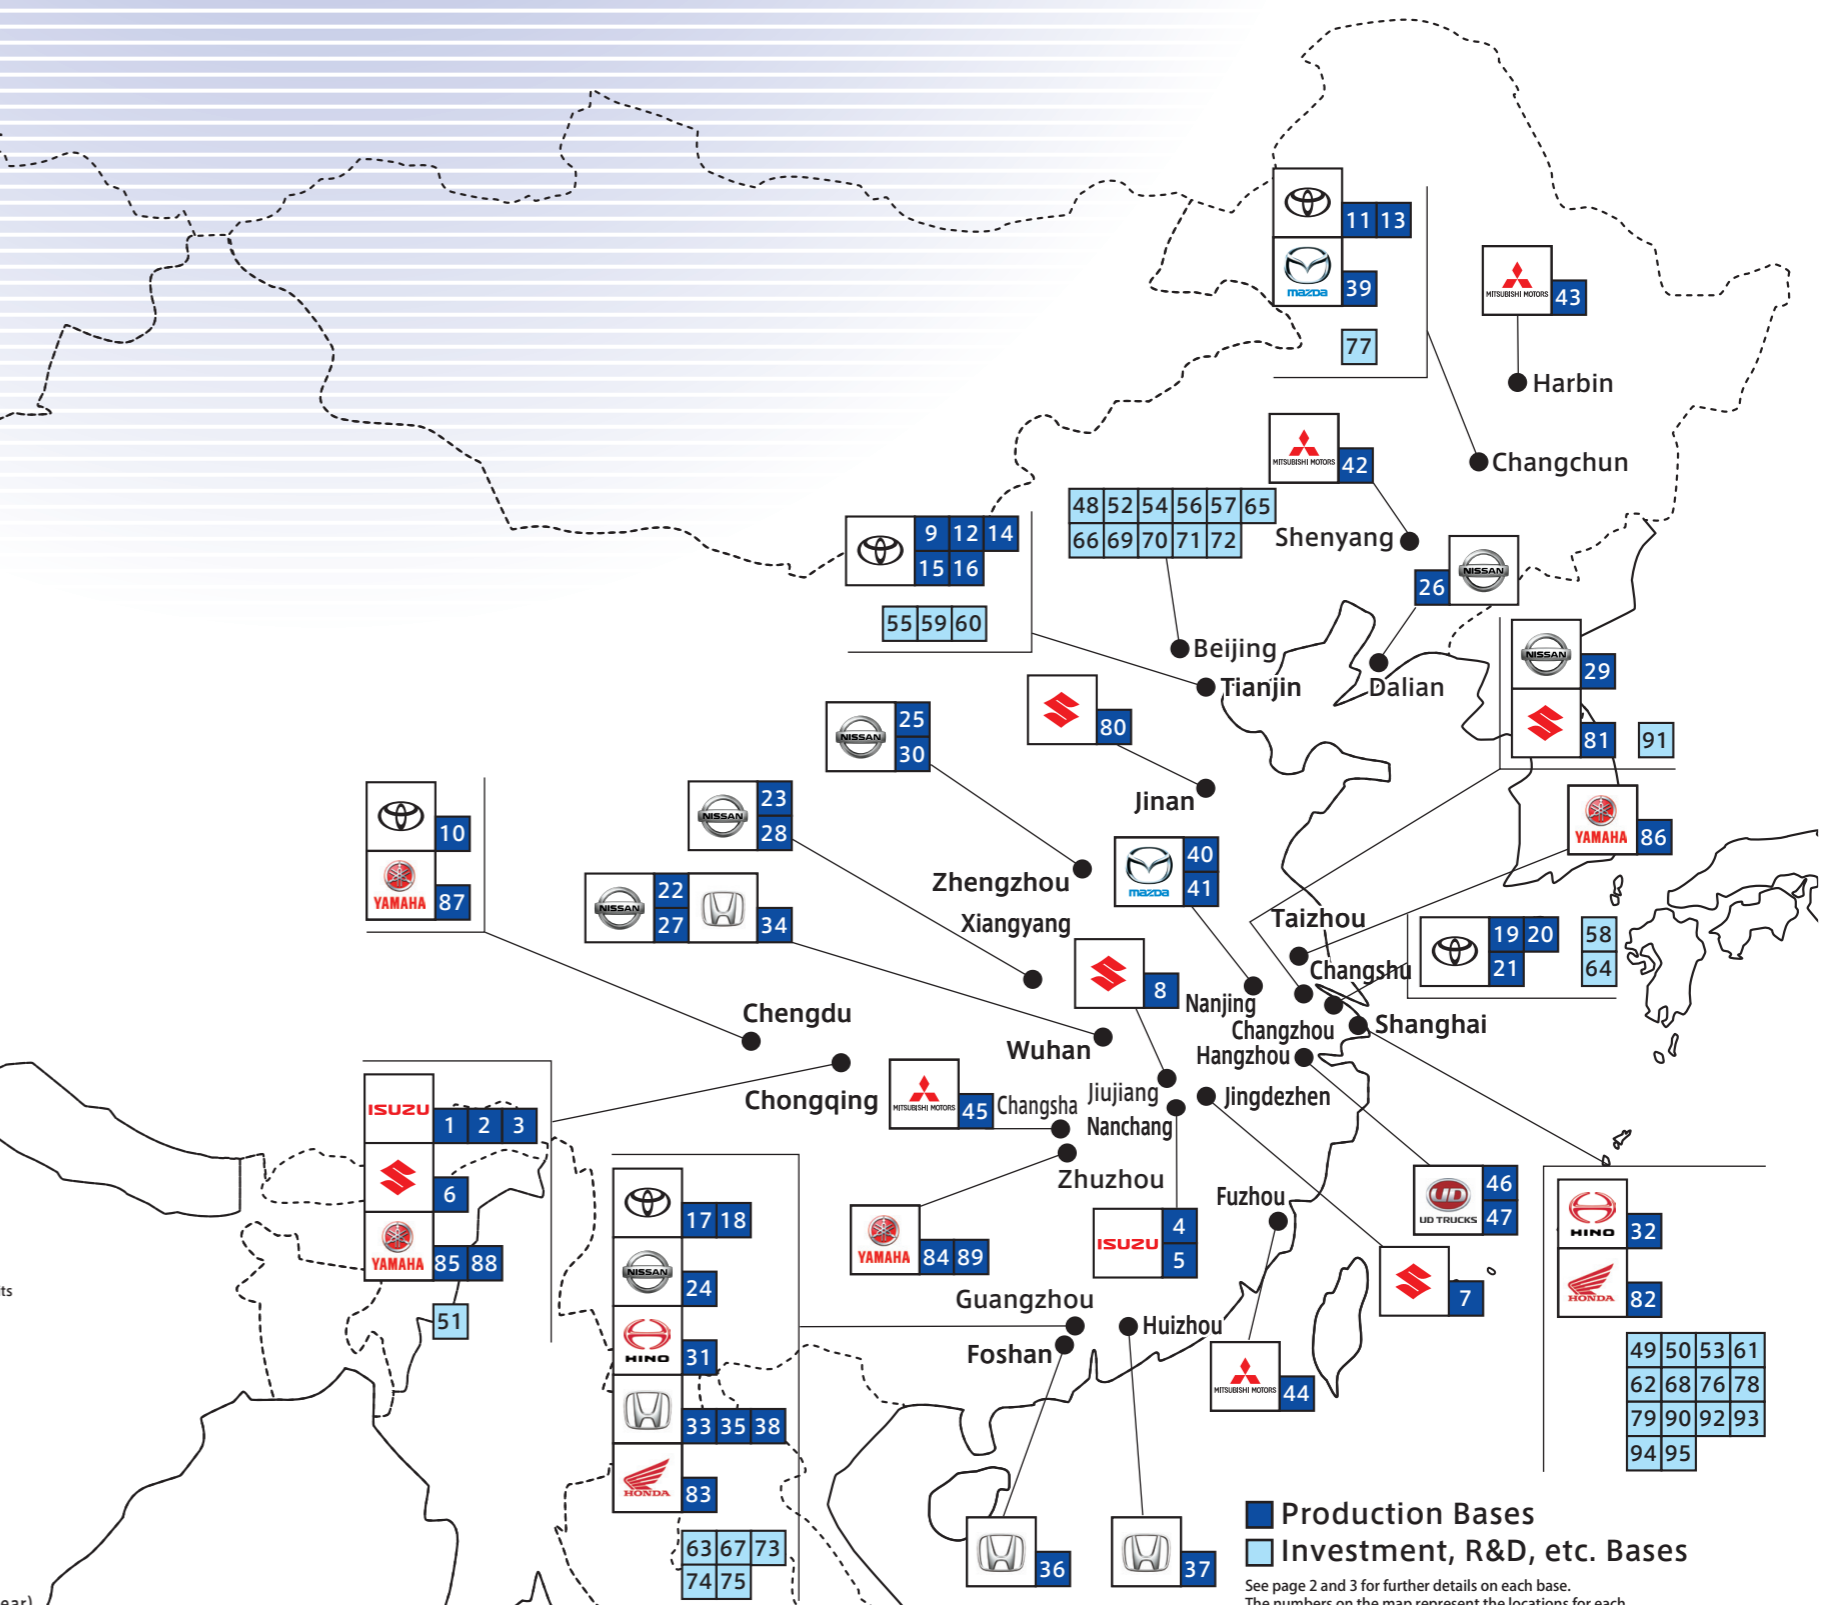

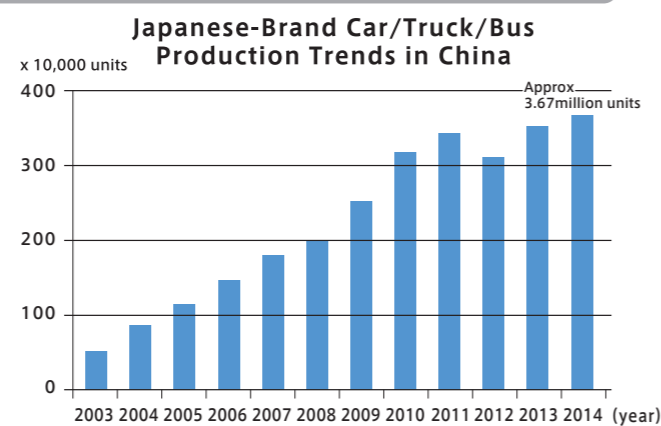

■ Total number of employees (cars, trucks & buses): Approx 166,000
Plants: Approx 158,900;
Other: Approx 7,100

■ Total number of employees (motorcycles): Approx 14,800
Plants: Approx 14,200;
Other: Approx 600

Production in 2013

■ Passenger cars, trucks & buses:
Approx 3.67 million units

■ Motorcycles:
Approx 2.87 million units

■ Production Bases
■ Investment, R&D, etc. Bases

See page 2 and 3 for further details on each base. The numbers on the map represent the locations for each on page 2 and 3.

Note: A few of the above facilities and their employees also produce, in a tie-up arrangement with a Japanese manufacturer, Chinese-brand automobiles or motorcycles. Sources: Japanese automobile manufacturers
